Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant disagrees with the interpretation of the reference regarding "full rate" and "half rate" CODEC as applied to the coding of speech versus the coding of a channel. The prior shows that it is obvious to change between full rate BTS/speech CODEC (13, figure 3) and half rate speech. The Examiner's position is that the claims broadly recite "converting the speech parameters" between two speech coding methods and that Kapadia does this by converting between full rate and half rate across different channel paths of the signal.
